

BETA FOSTER CARE

FOSTER FAMILY AGENCY
Serving So. Calif. Since 1988

2020 Annual Report

Our Mission

The mission of Beta Foster Care is to prevent child abuse for at-risk children, by providing enriched foster care placement and professional services. Beta Foster Care works alongside County Child Welfare Agencies to meet the physical, emotional, psychological, and developmental health needs of placed foster children.

About Beta Foster Care

Established in Orange County, California, Beta Foster Care was incorporated in 1988 as a 501(c)(3) non-profit agency tasked with providing private foster family placement for children in Orange County who have been removed from their parents' custody due to abuse and neglect.

Beta Foster Care is licensed by the State of California Department of Social Services to serve as a Treatment Foster Family Agency designed to meet the special emotional needs of children in foster care placement. Beta Foster Care's mission is to provide professional services that prevent cruelty to children.

BFC trains and certifies qualified adults for foster care under state regulations and manages the appropriate placement of children into these foster homes. Then we provide continuing therapy for the children and on-going support for the foster parents.

Board of Directors
